

## Management Policy

**The quality of our products in an important prerequisite for the successful future of our Company.**

**It is our goal to define and optimize specific organizational processes**

**In accordance with the**

**DIN EN ISO 9001:2015**

**standards**

### Principles of our quality and environmental policy:

- ◆ Quality of our products = customer requirements
- ◆ Error prevention instead of error correction
- ◆ Quality in all processes from the customer enquiry to delivery
- ◆ Continuous improvement in the Organization and the range of products and services in all areas
- ◆ Compliance with all relevant laws and regulations
- ◆ Environmentally friendly and quality-oriented actions in all processes

### Commitment to quality and to environmentally friendly actions:

- ◆ Training measures should promote understanding and responsibility towards quality and consideration of environmental issues
- ◆ Every employee is personally committed to achieve the quality and environmental goals

### Quality and environmental goals:

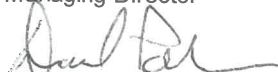

- ◆ Increase our flexibility with regard to customer requirements
- ◆ Promote employees quality and environmental awareness
- ◆ Secure jobs through long-term customer relationships
- ◆ Gain customer trust with qualified personnel and state-of-the-art-technology
- ◆ Increase employees' flexibility within the organization
- ◆ Reduce our order throughput times
- ◆ Cut downtime due to technical problems
- ◆ Create a working environment that allows every employee to face demands in amotivated and dedicated manner

A management system has been introduced and the management manual has been implemented by the management to realize these goals.

Memmingen, 04.10.2022
